

Mrs. Helen Farrell, Secretary W.C.T.U., Saranac Lake, N.Y., says to every sick woman, "Try Lydia E. Pinkham's Vegetable Compound. I know it will cure you."

"DEAR MRS. PINKHAM:—Although I have never given a testimonial before, I feel it a duty as well as a pleasure to advise sick women to try Lydia E. Pinkham's Vegetable Compound. By experience I found it a most valuable remedy for the peculiar ailments known only to women. A large number of my friends have been cured, and very recently a dear friend of mine who has tried a number of physician's prescriptions without relief gave up in despair, when Lydia E. Pinkham's Vegetable Compound was suggested to her. It was her last hope, but it proved a Godsend to her—just the right medicine for me, she says—now she is cured and just the right medicine for every sick woman say I—try it and you will find it will cure you in very short time."—MRS. HELEN FARRELL.

\$5000 FORTIFIT IF THE ABOVE LETTER IS NOT GENUINE. When women are troubled with irregular, suppressed or painful menstruation, weakness, leucorrhoea, displacement or ulceration of the womb, (that bearing-down feeling, inflammation of the ovaries, backache, bloating (or flatulence), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, blues, and hopelessness, they should remember there is one tried and true remedy. Lydia E. Pinkham's Vegetable Compound at once removes such troubles. Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

CASE NOW IN CITY COURT

Much Ill Feeling Is Exhibited Over the Matter.

There is one thing sure, and that is that if he don't get off that land and give it up to Harrow the boys will see to him!" said H. H. Keller yesterday to an Eagle reporter at the court house. He spoke of a man named Wm. Kirk, who has possession of a farm three miles southeast of Bentley and refuses to give it up to S. A. Harrow, who claims that he is the owner of the property and should be in possession of it.
Mr. Keller is a property owner living near the disputants. He had been summoned as a witness in the case, which was in the city court yesterday and was continued till this morning. There were a great many other witnesses for Mr. Harrow, among whom were T. J. Smith, Geo. Ramsey, W. J. Bashore, Oscar Stevens, Wm. Swere, D. McKillup and C. E. Christensen.
"These men are all on one side, and that is Harrow's," said Mr. Keller. "They are harrowed men, who say the injustice of Kirk's action and want it righted. It was for this reason that a week ago this coming Wednesday thirty-one of us fellows got together and went to Kirk's house. When we got up to his front door he came to the door and ordered us to leave the street. Upon this, some were in favor of throwing bricks at the windows and removing Kirk bodily, but older and wiser heads ruled and there was no violence. Faye Howes of Newton, who owns property in our neighborhood, was the spokesman and told Kirk that we demanded that he give Harrow possession of the land. The lawyer in town was handling his affairs, and he wasn't going to be run by no community. Well, we didn't get much satisfaction out of this, but made our minds up to let the law take its course and then if it didn't justice Kirk would be thrown off the land. We all went home, but if Kirk after this trial refuses to give up the land to Harrow, there is going to be trouble of a serious nature out there."
Why, his outrageous how that man Harrow has been treated. We fellows don't know him well, but we know from Missouri and he has been living out there near his rightful place all the winter with six little kids in an old shack of a house, and the mother of a woman, and this trouble has nearly set her crazy."
Yesterday was occupied in this case by the taking of evidence. Both parties to the case were on the stand during the afternoon. The evidence shows that Mr. Kirk was holding the land on a lease when Mr. Harrow bought it. This lease was in the names of both, and Mr. Kirk, so that when Mr. Harrow served a notice to quit in Mr. Kirk's name alone the latter still held possession on the point that the other party to the lease, his wife, had not been served with a notice to quit.
Ayres & Blake represent Mr. Harrow, and S. W. Shattuck Mr. Kirk.

Paine's Celery Compound

HAS THE APPROVAL AND IN-DORSEMENT OF THE BEST PEOPLE AS A LIFE GIVER.

No Other Spring Medicine Can Give Such Cheering and Happy Results to Sick and Diseased People.

As spring ushers in the physically weak, sick and diseased realize that their condition is one of extreme danger. It is a well known fact that thousands of men and women are cut off by the common diseases of life. This fact should arouse the attention of the ailing and sick to the folly of underestimating and neglecting the ills that make life miserable at this season.
The use of Paine's Celery Compound at this time will save many a precious life. The great compound equalizes and calms all the nervous tissues and induces the body to take on firm and solid flesh. It purifies the blood as is plainly shown by the rapid clearing of the skin of all evidence of bad humors within; it regulates the organs of digestion; it gives natural sleep and sweet rest.
All our best physicians recognize Paine's Celery Compound as the one scientific spring remedy, and it is universally prescribed by them wherever there is need of a vigorous and prompt restoring to health and strength. The use of one bottle of Paine's Celery Compound will bring the happiest results to all weak, broken down and despondent sufferers, and will quickly banish the fears of doubters and unbelievers. Paine's Celery Compound has the approval and indorsement of clergymen, professional men generally, judges, members of parliament, merchants and the best people. Test its virtues, dear sufferer; it cannot disappoint you.

BATH STORY UNTRUE

Mr. Hougham Corrects a Statement Going Through the Papers.

Geo. W. Hougham, writing from Genda Springs to the Eagle, says:
I notice in the columns of several papers the statement of the death of Mr. Perry Louthier, who came here a few weeks ago from Invermire, O. T., suffering with Bright's disease, hoping to receive relief from our valuable mineral springs. The papers state that he came to his death while taking a bath. I want to say that such reports are not true, as I am the only person that gives baths or have given baths this winter up to the present time, and Mr. Louthier never took a bath while he was here. I don't believe he was ever in the water. He died at Genda Springs while in town. He died at the home of S. W. Lefever, his brother-in-law, in the southwest part of town.

ASKS FOR BIG DAMAGES

Ola Johnson Sues Bunell & Eno Investment Company.
Ola H. Johnson has filed a \$1000 damage suit in the district court against the Bunell & Eno investment company of Pennsylvania. The plaintiff, Mr. Johnson, alleges that he bought lots 2 and 4 on North Lawrence avenue in the Dakota & Corn addition of the defendant through its agent, H. W. Morgan, that after paying all money due for the property, he was discovered that there were two mortgages on the lots amounting to \$1,000, that the defendant had no control of these mortgages, and therefore the plaintiff asks for \$1000 damages.

LOOKING OVER WICHITA

Mr. L. C. Jacks in Drops in From Chicago for a Day.
Mr. L. C. Jacks of Chicago came in from Chicago last evening to look over interests here. He was up and down Main street and Douglas avenue last evening looking for the property of the city's various public works which were on display, and he said that Wichita looked good to him. He will return east some time today.

Editor:—I had two children in New York and that my wife was dead. I did not know whether to write my testimonial or not, but I did write a few lines for the Eagle. The Eagle man was stopped when he read it. He did not know what to do with it. He wrote to write poetry, it seemed so natural. Why, he said, read your poetry like your grandfathers read when you were a boy. I read your poetry and he said that your last part of such and he can talk all day about the wonderful machine. This machine, which would pull heavy loads in the mills and factories of this country, would be a real wonder, and but for the fact that it was a machine, it would be a real wonder. I am a man of science, and what is more wonderful, what after it got started, run without power from any outside source. It is a machine which will do for a wind machine. "Wind is free," said the professor, "and why not let it do your work?"
"New York," continued the gentleman, "I should like to see the machine, and in that case place a lot of windmills and then start a blast of air

ANOTHER GUARD FOR J. P. DUNN

John Koonitz Placed at St. Francis by Chief of Police.

HE MAY BE MOVED SOON

He Is Getting Along Nicely but Wound Heals Slowly.

"J. P. Dunn will be able to be moved within ten days," was the statement given out by the authorities at the St. Francis hospital last night. The man is getting along nicely and improving at a very rapid rate, and the officers who have warrants for him are preparing to take him away within a very short time. Last night the chief of police stationed John Koonitz at the hospital to see that the man did not make his escape, and incidentally to see that he was not taken away. Now, there are two officers watching the man, one for the sheriff and one for the police. It was reported on the streets last night that Dr. Clark was not guarding the man any longer for the sheriff, but the doctor denied this.
When Mr. Dunn was brought to the hospital he was not expected to live, and it would hardly seem possible for any man to live with a wound such as his, and one that had been neglected for as long a time as that one. He is not a well man by any means yet. There is a large spot in his side that has not healed, and will not heal for a long time yet, as there is so much poison in the stomach and intestines that until this is all removed the wound cannot heal.
Sheriff King of Johnson county, Ark., and United States Marshal Paden Tolbert were in the city last week, expecting to take the man home with them, but owing to his condition this was put off for a time. It is not known just how long they will remain, but it was given out last night that even if Mr. Dunn was removed from the hospital within two weeks he could not stand the trip to Arkansas for a month or more.
Both county and city officers claim to have a prior claim on the man. Each has served a warrant. Sheriff Simmons' warrant from a justice court and Chief Butcher's warrant from the city court. Both county and city officers claim to have a prior claim on the man. Each has served a warrant. Sheriff Simmons' warrant from a justice court and Chief Butcher's warrant from the city court. Prof. R. B. Britts of Neodesha, Nebraska, was in the city yesterday. Prof. Britts is the man who has been talking about his machine, almost any religious subject, writing poetry, and has invented a perpetual motion machine, one that will revolutionize the power plants of the world and has a large of these British American, and he believes all this, is looking for an heiress to become his bride, and repairs sewing machines as a side line. He claims to be a descendant of God and that he is the great grandson of the Almighty and was sent here to introduce perpetual motion, and repair calendar clocks and sewing machines.

DOCKET HAS BEEN COMPLETED

Judge Hook Did Lots of Work at This Term of Court.
The docket of the United States district and district courts has been completed and a record taken and it is impossible that the court will again convene until the September term begins. The docket of the court has been taken up in regular order and disposed of with dispatch, and this has been the longest session of court for a long time. Judge Hook came here expecting that court would hold about a week, but found that there was a number of cases that took considerably longer time than he expected, so he held the court until all the business before it was disposed of.

MOVE THEIR OFFICES

R. G. Dun & Co. to be Located in the Sedgewick Block.

Today the southwest corner of R. G. Dun and company moved its quarters from the Fletcher building to the south east corner of the Sedgewick block. New office furniture has made the place a very desirable office and will give the district office of fifteen men an added impetus to work. This room gives the firm a better view of the city and it is impossible that the court will again convene until the September term begins.

The docket of the court has been taken up in regular order and disposed of with dispatch, and this has been the longest session of court for a long time. Judge Hook came here expecting that court would hold about a week, but found that there was a number of cases that took considerably longer time than he expected, so he held the court until all the business before it was disposed of.

W. R. C. will have their district sale Friday afternoon and Saturday afternoon and evening at 25 North Main street. We will have on sale everything for the Winter dinner and many useful articles including handkerchiefs from Mrs. Geo. Grant, Mrs. C. Grant, Mrs. M. Grant, Mrs. W. Grant and many other distinguished ladies over the country. Let the public patronize the bazaar and help in a good cause.

Eczema, Psoriasis, Salt Rheum, Tetter and Acne

Belong to that class of inflammatory and disfiguring skin eruptions that cause more genuine bodily discomfort and worry than all other known diseases. The impurities or sediments which collect in the system because of poor digestion, inactive kidneys and other organs of elimination are taken up by the blood, saturating the system with acid poisons and fluids that ooze out through the glands and pores of the skin, producing an indescribable itching and burning, and the yellow, watery discharge forms into crusts and sores or little brown and white scales that drop off, leaving the skin tender and raw. The effect of the poison may cause the skin to crack and bleed, or give it a scaly, fishy appearance; again the eruptions may consist of innumerable blackheads and pimples or hard, red bumps upon the face. Purification of the blood is the only remedy for these vicious skin diseases. Washes and powders can only hide for a time the glaring blemishes. S. S. S. eradicates all poisonous accumulations, restores the blood to its normal purity, and stimulates and revitalizes the sluggish organs, and the impurities pass off through the natural channels and relieve the skin. S. S. S. is the only guaranteed purely vegetable blood purifier. It contains no Arsenic, Potash or other harmful mineral. Write us about your case and our physicians will advise without charge. We have a handsomely illustrated book on skin diseases, which will be sent free to all who wish it. THE SWIFT SPECIFIC CO., Atlanta, Ga.
